Krishna Mahto

SOFTWARE ENGINEER

SUMMARY

Web Developer with 3+ year of experience in **React, Next.js, Node.js, and TypeScript**, skilled in building **social platforms, e-commerce apps, and admin dashboards** with modern UI, API integrations, and scalable architecture.

PROFESSIONAL EXPERIENCE

DiveBuddies

- Developed **Dive Buddies**, a social platform for scuba divers to share posts and explore dive sites, delivering a seamless community experience.
- Built a **modern, animation-rich landing page** to enhance user engagement and showcase platform features with interactive design.
- Implemented an **Admin Portal** for mobile app management with key modules: **Sites Management, User Management, Dashboard, and Content Management**.

PetPalz

- Developed **PetPalz**, a social platform for pet owners with features including user posts, pet hospitals, and pet stores, implementing the application from scratch.
- Built **PetPalz Admin Dashboard** with modules for **User Management, Analytics Dashboard, Pet Shops, Pet Stores, Notifications, and Authentication**, enabling seamless platform administration.
- Designed and deployed a **multi-language landing page (English & Arabic)** for PetPalz, ensuring accessibility and global reach with responsive and user-friendly UI.

Shinology

- Built **Shinology**, an e-commerce platform enabling customers to book car services such as cleaning, detailing, and maintenance with a smooth online experience.
- Developed the **Shinology Admin Panel** to manage services, customer bookings, and platform operations effectively.
- Implemented a **scalable architecture and user-friendly interface**, ensuring reliable performance for both customers and administrators.
